FSN - Oct 21 - Meeting Minutes

Draft SLIDES - Not for distribution

Dusription is bad until people move away

Deep learning - error rate on image reconization task is better than human expert

Classification task is better now with AI and deep learning

price is falling exponentially to do AI from 2mil in 2010 to 200k in 2015

Pigeons have better recognition capabilities than humans

Zero reasoning, close problem

Wont do a long tail problem - won't assess the long tale problem

freelance.com - automates simple task

drone is not efficient, but walker robots is better

KINECT 2

Block chain - distributed write only db?
arcade city - (uber competitor) peer to peer - using block chaining

China uses crypotchain for gambling

peer to peer blockchain apps?

Traffic data can be good for app to provide for free

Furture is autonomous corporation!

Data scientiet - today is 250k 5 years will be 100k (as computers are good at data)

Be a good coworker, as everything else can be automated

US ecomerce is 8% (growing 15% a year)

Consider peoples adoption capicity to consider for retail or automation

after electronic takes over a sector - jobs goes to 1/3

Industry 4.0 -

Shapeways.com <- distributed networked manufacturing (TODO)

Digitally intermediated mesh economy all ready in pace for adds that why it takes the same amount of time for to load webpage as it did in the past even tho speed has increases. There is actions taking place for add on your screen while you click to go on the page.
